Louie's Vegas always had a fantasy touch, but this noir urban fantasy is told by sassy Delilah Street, Paranormal Investigator, a Kansas orphan who's hurtled into the black heart of 2013 Vegas . . . after the Millennium Revelation brought all the bogeymen out of the closet.

*Dear Readers,*

WEDDING belles go crazy when the suave Fontana bachelor party runs into murderous trouble and the ladies must rescue them. Add an isolated desert brothel and a new dollop of international intrigue and **SAPPHIRE SLIPPER** is a romp to remember! I am glad to see that my rival PI's new book cover features a feline with a capital F. I do not mind sharing the spotlight with Miss Delilah Street if she shows the proper respect for the superior species. Trouble is, the superior species in her Vegas might be blood, body, and soul suckers.
